Foreword

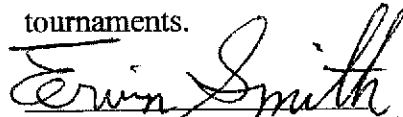

Welcome again to the amazing and wonderful world of American Pool Checkers Tournament Games. Games in this edition were played and recorded during the 43rd Annual National Tournament in New Carrollton, Maryland, just outside of Washington, DC., July 13-17, 2009. We have included in this edition 73 selected games by our reigning champion, Calvin Monroe, 54 Games of the great teacher, Vladimir Kaplan, and 46 Games of long time champion, Iser Kuperman.

By studying these games, you will improve your own level of play. Make notes and try to determine when and why games were lost and where drawn games may have been won. Go over games with players in your area.

Games here are indexed by number and first move, and roughly by rank order of players in the division of play. APCA Tournament Divisions are as follows from highest to lowest: Top Master, Master, Junior Master, Gold Bar and Blue Ribbon. The results of each game are indicated by BW for Black Wins, WW, White Wins, and D for a Draw. In all games the Black side moved first. Each game is pictured after the 15th move unless a decision was reached earlier in which case the game is shown as it appeared on the last move recorded.

There are 360 end game problems for you to sharpen your end game skills. Space has been provided for you to note solutions. If you are stumped on any game or end game problem, consult a higher level player in your area, call one of our national consultants, or call, email, or write me.

Best wishes for improved play and a higher finish in all your future tournaments.
